# PRIJAVA NA MICROSOFT AI HACKATHON

We are organizing the **first-ever Women In AI Hackathon, in collaboration with Coderspace**, across 8 different countries in South-east Europe.

Applications are now open for female university **students from Turkey, Greece, Malta, Cyprus, Serbia, Croatia, Bulgaria, and Slovenia.**

This 2-day event provides a unique opportunity for participants:

- o to engage in cross-country teamwork
- o design innovative ideas
- o gain valuable experience in the field of artificial intelligence
- o become familiar with Microsoft technologies.

At Microsoft, we firmly believe that gender equality is crucial in driving innovations that will improve the world through technology. The Women In AI Hackathon is designed to **support** and inspire female university **students in their careers and our collective future**.

We would appreciate it if you could share this information with your students and colleagues, and we hope to see many of them at the event.

PRIJAVA DO 25. 02. 2024.

Thank you for your time and consideration.
